9.30am ***Skills for the Coaching Conversation***

Professor Tony Grant, Director of the Coaching Psychology Unit, Sydney University.

The quality of an organisation is dependent on the quality of the conversations.

A school leader in many moments of a day is in the 'coaching conversation'.

This session will help you:

- * recognise the specific skills of the coaching conversation
- * enhance the performance and quality of life of the individual and their organisation.
- * understand the tools of the coaching conversation with well known actors applying the skills.

Morning tea

Shakespeare's Unforgettable Leadership Styles and Their Lessons

John Bell, Director / Actor

Think Hamlet, and before we blink, 'decision making' angst is conjured.

Think: Julius Caesar and the ultimate backstabbing image flashes up.

If all the world's a stage, then the education leader plays many parts. How to navigate this complexity and keep the body count down?

John Bell's mastery shows research data is not the only guide to insight as he holds a mirror up to blind spots and predicaments to understand effective leadership.

Decision Making

Dan Lovallo Professor of Business Strategy at Sydney University & senior research fellow, University of California.

This session will offer cutting edge skills on decision making.

Changing the Culture

Professor Donna Cross, University Western Australia.

Awarded WA Australian of the Year for achievements in translating research into best practice.

This session offers:

- * practical tools for the classroom and strategies of best practice for whole school culture
- * effective interventions for bullying and changing covert culture, including cyber bullying.

Lunch Break

Influencing the Wellbeing of Young People

Professor Ian Hickie, Executive Director, Brain & Mind Research Unit, Sydney University.

He is listed in the top 10 cultural influencers. Professor Ian Hickie will bring:

- * the latest findings in understanding young people's brain development
- * insight into maximising the conditions for young people's growth.

School Leaders Improving the Academic Performance of Students

Professor Stephen Dinham, Melbourne University. The fascinating evidenced based shift.
