Bringing Laudato Si' To Life: in the Forest Parish

The earth is the only one and it is our home. We must take care of it, not only from a scientific point of view, but more so, from a spiritual view. Everything is connected to it.
Pope Francis' vision of integral ecology in *Laudato Si'* is of a new relationship between God, the earth and humanity.

LISTEN to Fr Sean McDonagh, one of many people Pope Francis consulted for *Laudato Si'*
(*On Care for Our Common Home*).

ASK questions and discuss.

SEE what one parish is doing to implement *Laudato Si'*.

SHARE what your parish/you are doing.
