## How it works

Evolution Outdoors allows for a completely flexible attendance pattern. This means that you do not have to attend a set number of sessions each week. Nor do you have to nominate specific days or classes that you will be attending. Hence the program takes into account that things come up as they invariably do – meetings, partner off sick, travel etc.

With our flexible structure you won't get penalised for not attending specific classes. At the same time you will also be held accountable for completing your pre-purchased sessions within a 4 week period, and we will be there to support you the whole way.

A roll call is taken at each class and your attendance is tracked. At the end of each 4 week cycle the actual number of sessions that you attended is reconciled against the number of sessions that you purchased. Any additional sessions are charged for at the rate applicable to the membership that you have purchased.

## Step 2

### How much to play?

You will be required to sign a credit card authority form. You will be debited 4 weekly at the appropriate membership rate.

### Rules of the Game:

#### Additional sessions

If you purchase option 1 or 2 (green or blue option) and attend additional sessions in the 4 week period, you will be billed \$20 per class on a retrospective basis. Session attendance is entered daily and reconciled at the end of your 4 week training cycle. \*If you purchase option 3 (red option), you will receive 12 sessions and we will bonus you an additional 12 in each 4 week cycle. This essentially provides you with unlimited training.

#### Session credits

Missed sessions may not be credited to the next 4 week cycle. The reason is simple – by paying for and agreeing to complete the sessions in a specific period of time you are entering into a commitment with yourself. Knowing that you will not be credited for missed sessions (while having the option of the flexible attendance pattern) will help to ensure that you make a real commitment to training over the 4 week period. Please note that this policy will be strictly adhered to.

#### Freezing your contract

Evolution Outdoors runs for 48 weeks per year, from mid-January to mid-December. During the Christmas holiday period all memberships are frozen. In addition to this, you can also freeze your contract for an additional four weeks per annual cycle (total of 8 weeks per year).

#### Terminating your membership

This is the really cool part, unlike traditional gyms we do not lock you into any form of membership. This is because we are as accountable and committed to your training as you are. That's 'cos you have to at least tell us why. So if you know longer want to train at evolution then we shouldn't be paid. It's that simple. Just another one of the many ways your evolutionary looks after you. So If you wish to terminate your membership at any time all we require is two weeks written notice.

I have read and understand the terms and conditions.
